

22nd City Council District

Lynne Serpe (G)

Hello, I'm Lynne Serpe, your Green Party candidate for City Council in District 22. Are you tired of politics as usual, of scandals and back room deals? I'm running to offer voters a strong, independent choice. I have practical solutions, and experience working in our community AND in government. I've helped raise nearly one million dollars for a greening initiative at Queens Library, and created new gardens, where people grow healthy food. I've worked for elected officials, serving constituents and drafting legislation. You deserve a council member who will put you first, every time — who will fight to make sure private developers keep their promises, for new schools and supermarkets, a new community center and increased waterfront access. To me, being green is about using resources wisely, about public health and thriving small businesses. My dad got his GED in the army and I worked multiple jobs to pay for college, I understand how to save money and the importance of a good education. We need to invest in green manufacturing and energy-efficiency, which will lower utility bills, maintain affordable housing and create local jobs. More buses, bike lanes and water taxis will improve air quality and reduce traffic congestion, while expanding our reuse and composting programs will save millions. Let's improve our parks, green our vacant lots and fully fund our libraries, senior centers and after school programs. And let's keep corporate charter chains out of our district and out of our public schools. We live in a wonderful, diverse neighborhood. I want to work for you, to keep it safe, clean and green. I ask for your vote on November 5th. Please visit serpeforcouncil.org. THANK YOU.
