

## **47th City Council District**

**Todd Dobrin (D)**

Hi! I'm Todd Dobrin, candidate for the 47th district of the New York City Council representing Southern Brooklyn. My family history in Brooklyn dates back 87 years. I hold a degree in Business Economics and work as a master electrician. I am a father of a beautiful 5 year old girl that I raise with my wife. Having lived in the district all my life I understand that parts of our neighborhood desperately need improvement. We don't need career politicians who run for office on empty promises. Where other candidates have built alliances with City Hall politicians, I have built relationships with people from the community. I'm running for office to bring resources to the community and empower the people in our neighborhoods. The next city councilmember in this district has an opportunity to advance the community and move us in the right direction for the next decade and beyond. For us to move forward we need a city councilmember committed to improving our infrastructure so our lights stay on and our streets don't flood. We need someone who will work to rebuild our education system so our children have a future. We need an advocate working with the NYPD to keep our streets safe while not infringing on our civil liberties. We need a representative who will only allow smart development on projects that benefit the community, not just the developers. We need a City Councilmember that will create business opportunities in the community, leading to careers that pay living wages. We need to respect our seniors and guide our youth by making sure the programs and centers that serve them are fully funded. We need a representative of the people that lives in the neighborhood, understands what we need, and works tirelessly to improve the community we live in. My promise is that as Your City Councilman these are my priorities and this is what I will achieve. With your support I will be your voice in City Hall and the representative who works for you. Once again I am Todd Dobrin, candidate for city council and I hope I can earn your vote.
